Berthiaume is ACT! Certified Consultant

MANCHESTER – Marc Berthiaume, President and CEO of MJB Technology Solutions, the Manchester based vendor neutral technology advisor and partner for small to medium sized businesses, has received certification from Sage Software as an ACT! Certified Consultant.

Berthiaume joins the more than 400 ACT! Certified Consultants (ACCs) around the world. ACT! is the number one selling contact and customer manager that helps businesses and individuals organize contact information, manage daily responsibilities, and communicate more effectively to improve productivity. As a world leader in contact management solutions, ACT! has over 2.7 million users and 41,000 corporate customers.

To receive certification, Berthiaume was required to participate in a comprehensive certification process that covers advanced functionality of the software, including installation, importing, and customization. He was then tested on his overall knowledge of the product and was awarded certification upon passing the exam.

New Hampshire ACT! users now have a choice. MJB Technology Solutions is one of two companies in New Hampshire with ACC's on staff. In addition to ACT!, MJB Technology Solutions is a certified QuickBooks ProAdvisor and QuickBooks Enterprise Advisor.
