Berthiaume Provides ACT! Solutions for Financial Professionals

MANCHESTER – Financial professionals seeking guidance and assistance when using the customer and contact manager software ACT! for Financial Professionals now have a solution provider based in Manchester, New Hampshire. Marc Berthiaume, President and CEO of MJB Technology Solutions, a vendor neutral technology advisor and partner for small to medium sized businesses, has received certification from Sage Software as an ACT! for Financial Professionals Certified Consultant. Berthiaume previously received certification as an ACT! Certified Consultant in February 2008.

“ACT! is an importance resource for many companies,” said Berthiaume. “By obtaining certification as consultant for ACT! for Financial Professionals, MJB Technology Solutions can better serve our clients and provide them with the expert advice and solutions they need.”

Berthiaume is one of only 60 ACT! for Financial Professionals Certified Consultants (ACCs) in the United States and Canada. ACT! is the number one selling contact and customer manager that helps businesses and individuals organize contact information, manage daily responsibilities, and communicate more effectively to improve productivity. As a world leader in contact management solutions, ACT! has over 2.7 million users and 41,000 corporate customers. ACT! for Financial Professionals solutions were designed for professionals in the Financial Services market. These solutions enable the centralizing of important prospect, client, and associated financial information and sharing of information across teams. The organization benefits from more secure contact and financial data, defined tracking processes, and assistance with compliance reporting.

To receive certification, Berthiaume was required to participate in a comprehensive certification process that covers advanced functionality of the software, including installation, importing, and customization. He was then tested on his overall knowledge of the product and was awarded certification upon passing the exam. In addition to ACT! and ACT! for Financial Professionals, MJB Technology Solutions is a certified QuickBooks ProAdvisor and QuickBooks Enterprise Advisor.
