Firm Offers Technology Solutions for Small and Medium Businesses

MANCHESTER, NH — MJB Technology Solutions, LLC was founded to provide small and medium size businesses with the technology services that are typically only available in larger companies. By focusing on integrating people, technology and processes, MJB Technology Solutions works with clients to shift their thinking about Information Technology from a reactive, fire fighting approach to a proactive one that identifies and addresses issues before they negatively impact business.

MJB Technology Solutions' President and CEO, Marc J Berthiaume has 25 years of business and technology experience in the financial services, manufacturing, hi-tech and construction industries. A graduate of Southern New Hampshire University with a bachelor's of science in Management Information Systems, Berthiaume's experience includes leading the technical staff that supported a \$2 billion dollar financial services network of organizations and directing a world class application service provider's 24x7 data and network operations center. His education, business acumen and technology expertise combine to ensure that clients make sound technology decisions that support their businesses.

Whether technology is a strategic advantage or a company's needs are technology dependent, MJB Technology Solutions can assist. "Using Best Practices, MJB Technology Solutions is focused on becoming your valued advisor and managing your technology, so you can focus on managing your business," said Berthiaume. "Our solutions are pragmatic and include a focus on Return on Investment and Total Cost of Ownership."

As a proactive technology advisory, MJB Technology Solutions strives to help business owners and managers find ePeace of Mind™.

To learn more about the technology partner services offered by MJB Technology Solutions and how to achieve ePeace of Mind™, call 603-622-3300 or visit www.MJBsolutions.com.
