

## Your Technology Partner

**MJB Technology Solutions** is a vendor neutral technology advisor and partner for small to medium sized businesses. Most small and medium sized businesses do not have the luxury of a full-time Chief Information or Chief Technology Officer. Our services include providing part-time CIO/CTO services or project based technology leadership to your organization.

Whether you have five or 250 computers, we work with you to shift your business's approach regarding Information Technology from reactive, fire-fighting mode to a preventive solution based approach that identifies and address issues before they negatively impact your business.

At MJB Technology Solutions, we help you:

- Manage your technology projects
- Align your technology with your business strategy
- Manage your systems, network and technology

## ePeace of Mind™

Imagine what you could do if you could spend more time developing, managing and growing your business and less time worrying about technology. As your technology advisor and partner, MJB Technology Solutions allows you to focus on your business while we manage your technology. We like to call it ePeace of Mind™.

## First, we begin with an assessment

Whether you have five or 250 computers we start with a **Business and Technology Assessment**. The Assessment covers several areas including Disaster Recovery and Business Continuity Planning, Software Licensing, Software and Line of Business Applications, System Reliability and Availability, Remote Capability, Network Infrastructure, Anti-Virus and pending Business and Technology Projects. We will work together to explore opportunities identified by the Assessment.

## Information Services Consulting

Managing your technology projects  
so you don't have to

MJB Technology Solutions is a single-source virtual IS and IT Department for small and medium sized businesses. We work with organizations to address short-term or tactical technology goals. We can assist with the following:

- Database Solutions and Report Writing
- Part-time or no IS/IT Staff
- Technology solutions beyond computer break/fix
- Outdated systems and technology
- Leverage technology to improve efficiency and effectiveness
- Business Continuity and Disaster Planning
- Effective backup strategy
- Data confidentiality, integrity and availability
- Software Licensing concerns
- Technical Asset Management

*Information Services Consulting may be provided by the project, hourly or by the day.*

## Virtual CIO Services

Helping you align your technology  
with your business strategy

Virtual CIO services can be provided on a set schedule or on an as needed basis, providing you with consulting in Information Services typically reserved and budgeted for by large companies. If technology is a fundamental component of your organizational plan for success, we can provide the following services:

- Business Continuity and Disaster Planning
- Strategic Technology Assessment and Planning
- Software Licensing Compliance
- Industry Best Practices Implementation
- Technology Budgetary Planning
- Information Management Planning
- Technology Vendor Management
- Imaging Solutions
- Technical Project Management
- Develop RFP / RFQ's and work with vendors through the bidding and implementation process
- Establish procedures, hire and train Technical Staff

*Currently, three Virtual CIO Services plans are available and designed to align with your business needs.*

### Virtual CIO Plans

#### Silver

One day per month

#### Gold

Two days per month

#### Platinum

One day per week

## Managed Services

Managing your systems, network and  
technology for you

The Managed Services provided by MJB Technology Solutions include access to a 24x7 data and network operations center to provide your organization with a world class network and support infrastructure:

- Laptop/Desktop, Server and Network Management
- Anti-Virus Updates and Patch Management
- Service Pack Installation
- Early Warnings and Preventative Maintenance
- Support Microsoft off the shelf products and third-party applications
- Extend end-user technical support
- Support and proactively maintain Windows NT/2000/2003 Servers
- PC and Network backup solutions

*Managed Services pricing is based on the type and level of service selected.*

Let MJB Technology Solutions be your valued business and technology advisor and provide you with ePeace of Mind™.
